

SECOND GEN OF AK DIGITAL SERIES

The AK G2 DIGITAL NYX air coolers build on DeepCool's performance-proven AK DIGITAL lineup with upgraded performance and a refreshed design.

AK620 G2 DIGITAL NYX
AK700 DIGITAL NYX

1. Next-level thermal control with average 1.5°C Cooler vs. Gen1 AK
2. 0-RPM Startup + Activate Clearing Tech (ACT) within 8 seconds of power-on
3. AI Smart Mode dynamically balances noise and performance
4. High-end quad-segmented digital display
5. Offset mounting solution for both Intel LGA1851 and AM5

EMBRACE THE SUPREME!

The ASSASSIN series adds to its impeccable cooling line with the ASSASSIN VC ELITE WH. With the new white aesthetic, the ASSASSIN VC ELITE WH includes a vapor chamber at the base that improves heat transfer dramatically while increasing the TDP to 300 watts!

ASSASSIN VC ELITE WH

1. Sleek white aesthetic for premium builds
2. Designed for hardcore gamers, streamers, and DIY PC builders
3. Whisper-quiet fans
4. Ideal for both Intel and AMD high-TDP CPUs
